Reception Flowers

Flowers will enhance your reception setting and carry out a theme. Pedestal arrangements tower above buffet tables. Long, low designs, often coupled with floral garlands, are suitable for the Bridal table. Decorate guest tables with coordinating designs.

Your wedding cake will look even more beautiful when accented with flowers. A flower-adorned cake knife and server will enhance traditional cake-cutting pictures. Ask us about other wedding-related flowers such as bridal shower and rehearsal dinner decorations, or flowers for your limo, or carriage.

Additional Flowers

Flowers express many feelings. Send a floral thank you to your parents and others who helped plan your wedding. Or, send a warm greeting to special family members or friends who couldn't attend your wedding celebration.
